SUPERIOR DUCT FABRICATION

Superior Duct Fabrication manufactures duct work and sheet metal products for industrial and commercial heating, ventilation, and the air conditioning industry. Our goal is to provide superior service and high-quality products to our customers to enable them to meet their deadlines.

SPIRAL ELBOWS

Contractors, engineers, and architects are moving away from costly and labor intensive square duct systems to spiral systems due to efficiency and cost savings. Spiral elbows have become a necessity. Superior Duct Fabrication is one of only a select few spiral elbow manufacturers in the US.

SPOOLING

Superior's experienced staff will create spools using AutoDesk Fabrication software then our production team will assemble the spooled sections. We will work closely with your team to create and deliver pre-assembled duct runs directly to your jobsite. You will be amazed at the reduction of installation time, and the savings of reduced labor costs!

PROJECT MANAGEMENT TEAM

We believe in teamwork and partnering with contractors to discuss and identify areas of delay and conflict to minimize job site delays which can create higher construction costs. We maintains constant contact throughout each project, helping you achieve a more organized and efficient method to supply product to your job site.

EXPERIENCE & SERVICES

- Sales staff has over 300 years of combined experience in the HVAC industry.
- Certified welders for all grease duct and welded jobs. Welding Certs available.
- Orders can be taken off Shop Drawings.
- Quick responses on all emailed & faxed details - 24-hour turn-around!
- Same/Next day delivery for Stock Products.
- Large Fleet of Trucks available for deliveries throughout the Western United States.
- Our sales team uses Autodesk software and Direct Download is available.

PRODUCTS

- Pipe & Flexible Duct
- Fittings & Saddle Taps
- Insulations & Sealers
- UNISTRUT & Hanging Accessories
- Duct Connection Products & Hardware

MANUFACTURING CAPABILITIES

- Rectangular, Round & Oval Duct & Fittings
- Burglar Bars, Roof Curbs & Adaptors, Platform Covers, Drain Pans, etc.
- Spiral Pipe Fabricated from 3" to 96" in diameter
- Oval Spiral Fabricated up to 12' lengths
- Fiberglass Duct Board Sheets & Fabricated Fittings
- Spooling or Pre-Fabrication
- Double Wall Rectangular & Round Duct & Fittings
- Industrial Exhaust Systems

MANUFACTURING MATERIALS

- Hot or cold Roll Steel
- 304 & 316 Stainless Steel
- Aluminum
- Paintlock
- PVS (Poly-vinyl coated steel)
- Perforated Galvanized Steel
- Fiberglass Duct Board & Fittings

MATERIAL HANDLING

For our customer's convenience we will basket or cart orders for the ease of part transportation and installation on a jobsite. This is especially advantageous when moving materials to different levels of a structure. These baskets or carts can be loaded and labeled by location whether that is an area, level, or room. Each basket is carefully marked according to your instructions and drawings. Our customers who utilize this program have found that it vastly simplifies material transportation on a jobsite. Saving crews the time of organizing and separating pieces.
